If you have need further information this will be available from your Local Authority.

What do I do if I'm experiencing difficulties making my mortgage repayments due to COVID-19?

The Government has agreed with mortgage lenders that they will offer repayment holidays of 3 months to households in financial difficulty due to COVID-19.

- You may therefore, be entitled to a mortgage or rental holiday for 3 months. This includes if you are a landlord whose tenants are experiencing financial difficulties because of COVID-19.
- The offer of a payment holiday can be made available to customers who are up-to-date with payments and not already in arrears.
- If you are concerned about your current financial situation you should contact your lender at the earliest possible opportunity to discuss if this is a possible option.
- At the end of this period, landlords and tenants will be expected to work together to establish an affordable repayment plan, taking into account tenants' individual circumstances.
- The Government has also announced that emergency legislation will mean landlords will not be able to start proceedings to evict tenants for at least a 3 month period. This will mean tenants experiencing financial difficulties because of COVID-19, will not face the threat of eviction for at least 3 months, this applies to both social and private renters.

What should I do if I'm experiencing difficulties paying back personal loans or credit card bills as a result of COVID-19?:

- The Financial Conduct Authority (FCA) has called on lenders to use flexibility built into their rules to support consumers, taking into account customers' individual circumstances - many major lenders have already made statements to this effect.
- In the first instance you should talk to your lender. If you agree a payment holiday with your lender, they should record these in such a way that will not impact on your credit score.

Large business facing cash flow issues as a result of COVID-19

- Companies commonly sell short term debt ('commercial paper') to the market. This is a quick and cost effective to raise working capital.
- The new COVID-19 Corporate Financing Facility means that the Bank of England will buy short term debt from companies.
- This will support companies which are fundamentally strong, but have been affected by a short-term funding squeeze, enabling them to continue financing their short-term liabilities. It will also support corporate finance markets overall and ease the supply of credit to all firms.

Further details can be found in the exchange of letters between the Governor of the Bank of England and the Chancellor, found here: [Corporate Financing Facility](#)

Own a pub serving food or you own a restaurant in England?

If you own a pub that serves food or a restaurant in England, you will be able to operate a hot food takeaway to serve people staying at home, without going through the usual planning process:

- The Ministry for Housing, Communities and Local Government (MHCLG) will shortly legislate to bring forward a temporary Permitted Development Right to allow for change of use from A3 (Restaurant) and A4 (Pub) to A5 (Hot Food Takeaway).
- The intention is that once the legislation has come into force a pub or restaurant will be able to notify their Local Authority that they are now operating as a takeaway without any prior approval.

Affected by proposed IR35 reforms to off-payroll working?

The government announced on 17 March that the reform to the off-payroll working rules (commonly known as IR35) - that would have applied for people contracting their services to large or medium-sized organisations outside the public sector - will be delayed for one year from 6 April 2020 until 6 April 2021.

- Business and individuals need not take any action.

Claiming on your business insurance due to the impact of COVID-19?

If the only barrier to your business making an insurance claim was a lack of clarity on whether the government advising people to stay away from businesses, rather than ordering businesses to shut down, was sufficient to make a claim on business interruption insurance:

- The government's medical advice of 16 March is sufficient to enable those businesses which have an insurance policy that covers both pandemics and government ordered closure to make a claim - provided all other terms and conditions in their policy are met.
- Businesses should check the terms and conditions of their specific policy and contact their providers if in doubt.
- However, many businesses will not have purchased insurance that covers pandemic related losses. As such, any affected businesses should note the government's full package of support, including the Coronavirus Business Interruption Loan Scheme and business rates holiday.
